Since 1970, the magazine VILLAS gives you the best there is in terms of architecture design and decoration.

Each edition includes up to 10 reports covering the whole world through all types of housing - villas, houses, apartments, lofts, castles, manors, cabins, boats... These are often modern places, some more exotic, others more classical, but they are always strong, original, coherent and remarkable.

Preceding these national and international topics, the first pages are dedicated to the following sections:
